Other sports.....	39

## Definitions

Freshmen cohorts are defined as first-time, full-time, degree seeking freshmen enrolled as of the freeze date in the fall semester of the given year. Athlete cohorts are limited to those who meet the criteria for the freshmen cohort and receive athletic aid. Transfer cohorts are defined as first-time, full-time, degree seeking transfer students enrolled as of the freeze date in the fall semester of the given year.

Persistence Rates are calculated by dividing the number of students from the original cohort that enrolled in subsequent fall semesters by the number of students in the original cohort.

Graduation Rates are calculated by dividing the number of students from the original cohort that graduated in a given year by the number of students in the original cohort. Graduation rates are cumulative and include all students who have graduated.

Retention Rates are calculated by dividing the number of students from the original cohort that graduated in a given year or were still enrolled by the number of students in the original cohort. Retention rates are cumulative and include all students who have graduated or persisted.

Enrollment freeze data is utilized in order to achieve stability in the historical cohorts and comparability to rates forwarded to federal and state agencies and to external publications. Degree information is taken from the frozen completions file. Retroactively posted degrees are included in student retention data and may contribute to slight changes in historical rates.

## Report Layout Change

Shippensburg University reports persistence and graduation rates to the Integrated Postsecondary Education Data System (IPEDS) and the Consortium for Student Retention Data Exchange (CSRDE). Beginning with this report, the cohorts presented (2000-2008) along with the number of persistence, graduation, and retention years tracked was expanded to align with these external reporting requirements.
